

## Dynamic Ditchers - Wolverine Extreme Ditcher

### Dimensions:

- Weight: 4082 kg / 9000 lbs.
- Size: 6.70 m L x 2.43 m W / 22 ft long - 8 ft wide
- Chute Height: 2.75 m / 9 ft
- Cuts: 1.52 m W / 5 ft

### Performance:

- Cuts: 7 cm - 10 cm at 3 km/h / 3-4 inches at 2 MPH
- Cuts: 5 cm - 15 cm at 1- 6 km/h / 2-6 inches at 1 - 4 MPH
- Can move up to 685 m/h / 750 yards/h
- Throws dirt up to: 45 m / 150 feet left or right
- Can be controlled by laser or GPS equipment.
- Smooth 1.52 m / 5ft wide flat bottom cuts. (No barrel cuts)

### Drive Line Protection:

- Torque limiting clutch on PTO driveline limits to 350 PTO horsepower
- Heavy duty auto clutch disengages when the kicker shaft paddles encounter an obstacle like a rock

Note: The ditcher can handle 500+ HP PTO tractors. Once about 350 PTO HP is exceeded the PTO torque limiting clutch will disengage.
